

2004 WINNEBAGO ADVENTURER 33V Used Class A – Private Seller in Colton CA 92324

Info:

We are selling our super clean and very well cared and maintained 2004 Winnebago Adventurer 33V because we need more space since we spend more than half of our time in the RV. We both work on our computers in the RV and need quite some equipment, which made things a little tight. Our 2004 Adventurer 33V convinced us that Winnebago builds the finest coaches, so we ordered a 2016 Adventurer 38Q. We had seen on our trips many very nice RV's, but the Adventurers have quite an advantage in many, many important things. Just recently we changed all lights, the TV's, the automatic Winegard satellite antenna for DirecTV and the receivers to the newest standards. We also built a huge detachable table for the passenger work station for myself, while my wife had her work station at the vanity area. This coach can be used as a second home, a rolling office and a place to showcase your products outdoors; it can partly be written off your taxes. You're very welcome to come with us for a test drive and see what a wonderful RV this is.

Note:

We ordered the window awnings but haven't installed them yet. We'd do that for you or return them; the extended liability with road side assistance we have since December; the cost is \$1,000 per year; we used up 8 months so far; we could do a name change if you pay the outstanding 3 years and 4 months; otherwise we just cancel it and get a refund. We still have the small LCD TV and the Storage compartment divider and door, if you want we can build it back for you if you prefer more space instead of a large TV.
